PROJECTS

Eatio 🔗
Online Food Ordering Platform
Developed a dynamic web page using HTML, CSS, and JavaScript for Eatio, an online food ordering platform. Implemented features allowing users to browse menus, place orders, and view customer reviews, enhancing the overall user experience.

WheelsOnGo 🔗
Car Rental Management System
Created a comprehensive web-based Car Rental Management System, WheelsOnGo, using HTML, CSS, and JavaScript. This platform allows users to seamlessly browse available cars, select rental dates, and book vehicles. Incorporated additional features such as service information and customer reviews to enhance the user's interaction with the platform.

Rich Cuisine 🔗
Culinary Delights Web Portal
Crafted an interactive web page for Rich Cuisine, featuring HTML, CSS, and JavaScript. This platform enables customers to effortlessly search for dishes, explore the diverse menu, contact the restaurant, provide feedback, and seamlessly reserve tables. The intuitive design enhances the overall dining experience, combining aesthetics with functionality.
